

INTENSIVE Masters of Invisible Orthodontics
For Specialist Orthodontists

The European Masters of Aligners is recognised by Align Technology and includes an official certification to treat patients with the Invisalign system

The course pays for itself:

2 Invisalign case starts cover the entire cost of the EUMAA Programme
The average number of case starts achieved by Spanish EUMAA candidates is 15 in the first year

INTENSIVE Masters of Invisible Orthodontics

This is an intensive version of the classic European Masters of Aligners which runs over 3 consecutive days and two days after a 2 month period for Orthodontists who prefer working at a fast pace.

The Programme is led by Specialist Orthodontist Dr Raman Aulakh, an Invisalign Platinum Elite Provider, who has extensive experience training Orthodontic Specialists and GDPs in this clear aligner technique.

It still offers a **blend of theory and hands-on sessions**.

Orthodontists will be able to **access an online educational platform, dedicated mentoring** to address questions regarding clinical cases and ClinCheck treatment plans.

The intensive support also includes exclusive Study Clubs which are specifically dedicated to assistants and/or hygienists.

Orthodontists will also benefit **from negotiated rates with companies in the dental industry**, for products and services ranging from equipment to consumable items which make treating with Invisalign as effective as possible.

Register NOW to receive:

- 35% Invisalign discount for the first 6 months
- 20% Invisalign discount for the second 6 months

INTENSIVE Masters of Invisible Orthodontics

Module 1 (Friday 13th January, 2017)

Theory session

Step by step Invisalign, IDS, marketing, what Invisalign can do!

Maximising opportunities for private practice growth with Lina Craven

How confident are you that your practice is seizing every opportunity a prospective patient represents? Practices invest a lot of money and energy into attracting new patients but many fail to convert them into actual patients. A flawless patient journey together with a customer-driven approach maximises opportunities for increased case acceptance.

Lina Craven has assisted UK, European and Latin American practices to realise their vision of success through the achievement of a customer-driven culture that focuses on delivering an exceptional patient journey resulting in improved efficiencies and an increased bottom. Lina uses her expertise to help practices identify opportunities for growth, implement changes that are realistic and measurable and encourages a teamwork approach to business success.

Hands on session

Take records and send a case
